

# Bloomsbury Square Children's Trail

**Ask a grown-up to help you take pictures of all the fun things you see in the gardens!**

- 1** Bees are very important insects, because they pollinate flowers to make new ones. Can you spot any bees enjoying these pink flowers?
- 2** This tree looks like it's wearing camouflage! Where do you think it would be good at hiding? What does the tree feel like if you touch it?
- 3** If you look closely at the black stone on the floor, you can see a picture of the gardens. See if you can take a photo of the picture!
- 4** Can you spot the green bags around the trees? These are specially designed to water the trees, which helps them grow to be as big as the other ones here!
- 5** If you stand here you can see lots of tall, red buses going past. Where do you think they are going?
- 6** The tallest tree in London is 40 metres tall. That's the same as 9 London buses on top of each other! How high up this tree can you reach?
- 7** If you look around, can you see a tree that looks like it is silver? Why not look at all the flowers here and spot some insects.
- 8** This statue is of a famous politician. What is he dressed up as? Which London animal does he share a name with?
- 9** Come and enjoy the playground, where there are lots of fun things to do!
